

COT 4501, HW6 assignment, Spring 2014

Tim Davis

due Tues Apr 1, 2014, at 2pm

Submit this and all HW's via eLearning. If you work in a group, only submit one copy under one name. Put all names (up to 3) on the single copy. The other students should submit to eLearning a single statement 'see student X'. This is so that the TA can correctly grade your joint work.

Do the following problems from Heath's book, 2nd Edition. Be sure you use the 2nd Edition, since the problems can differ (and will differ) in other editions.

Submit your m-files and discussion and relevant diaries in a single zip file archive.
